

# Outlaw Camp Bulletin

April 8, 2017

Mark your calendar now! **Returning 1n 2018, “Mayhem on the Mountain”**, That’s the second weekend in October, 12 thru 14, 2018. This will be a shoot with a little something for everyone!! Again it will be the Arkansas State Black Powder Championship. We will also offer all SASS smokeless categories plus a few! Let’s see, Ten stages, Smoke, Fire, Gatling Guns, Cowboy Drive-by, Cowboy Skeet, Long Range, all the usual side matches and Canons? Yep, sounds like a little something for everyone.

**We will have an RO1 class here at Outlaw Camp Saturday, April 22 starting at 9:00 AM. Cost is \$10.00. Please let me know if you plan to attend.** That’s Ozark Outlaw, at 501-362-2963. You will need to go to the SASS website and download the current SASS Shooters Handbook and the SASS RO1 Manual. Be looking them over and bring them with you to Class. The class usually takes four or five hours to complete. **Our 4<sup>th</sup> Saturday shoot will proceed as usual with shooter mtg. at 9:45 shoot at 10:00. Register at the range pavilion. Those attending the class will have the opportunity to shoot the stages following the class. (Your instructors plan to shoot them!) I know there are some newer shooters out there who need to take this class and we encourage you to make a special effort to attend. This class is open to all SASS members, even those who do not normally shoot at Outlaw Camp.** We also plan to have an RO2 class in the very near future and being RO1 qualified is a prerequisite to taking that course. We also have shooters out there who need to brush up on the rules and all those who are already RO1 qualified are more than welcome to sit in at no cost. If you have any questions let me know.

Our fourth Saturday shoot turned out to be a delightful day. After all the talk about the rain it was all out of here and the sun was out by 10:00. We had several of our shooters who were trying to get in a little practice for “Land Run”. I hope they all did well!

One clean match, Tombstone Shadow, congratulations, that seems to be habit forming for him!

Our second Saturday shoot found several of our shooters off to other shoots or just off! It was a beautiful day, we shot in one big Posse but everyone had a great time. Three Clean Matches Windslinger, Outrider, and Mustang Moore. Congratualtions!

The biggest challenge of the day was on the last stage where shooters had the option of engaging the Train rifle targets for a bonus. Only a few choose to give it a try. Riley Roy former SASS World Champion Long Range shooter showed how to make short work of the challenge.

Arkansas Harper and Outrider did all the timing for the day and we appreciate their patience with us. We need to get some more qualified timer operators to help out. Believe it or not running the timer can be an exhausting job. If you are qualified to run the timer step up and relieve the TO. If you aren't qualified, get qualified! Club shoots are the place to practice your skills, both shooting and officiating.

Our targets need to be moved around a little so one of our spring projects will be to ask for volunteers to step up and take responsibility for a stage. It may need a little cleanup, face lift or whatever as well as moving some targets around, adding targets etc. you may want to do it alone or get yourself a crew together. We have cowboys and cowgirls with good imaginations so put them to work and let me know what you want to do. We are blessed with targets so there should be a lot of possibilities. Stages one and two, High Card and the Mercantile are already taken so pick a stage, let me know and get your name in the hat!

The South Fork River Regulators are hosting a Celebratory Shoot Saturday April 15 at their range in Salem, Arkansas. This is to be a free shoot with a free lunch provided! Registration is at 9:00 with shoot to follow. For more information call Arkansas Harper at 870-847-0733, or visit their website.

Don't forget April has a fifth Saturday and I am really looking forward to doing some FUN things, bring plenty of ammo! Until then, always.....

**"KEEP 'EM POINTED DOWNRANGE"**
