

Outlaw Camp Bulletin July 2009

Although a little warm, it was a **great day to shoot at Outlaw Camp**. We had some guests come by to visit and we had some new shooters to Outlaw Camp. We are glad you came and hope you come back to see us. We had Terry Howard, Johnny Brooks, John Lyons, Flint Greasewood, Rattlesnake Rowan, Sweetwater Sage, and High Card Kay and several spectators!

August has a fifth Saturday ,the 29th, so we have an **extra day to shoot**. The fifth Saturday is a fun day shoot so as always bring lots of ammo and have a good time. We will try to shoot at or around every target that moves or flies. It should be a good warm-up for Shoot'n in the Shade hosted by the Mountain Valley Vigilantes which will be held the next weekend. If you haven't signed up for that shoot you need to do so, quickly, as it is about full. We will also try to incorporate an 'Urban Cowboy' match into our Fun Day shoot. The Urban Cowboy match basically involves one semi-auto 22 pistol and two magazines with a ten round capacity. We have decided that to start this game out we will allow any 22 semi-auto pistol as long as you have sufficient magazines to hold 20 rounds, you will just have to change magazines more often. We are always open to try out a new idea if there is enough interest; let us know if there is something you would like to see added.

Our thoughts are with Tombstone Shadow AKA Jerry Fry and family in the loss of his brother last week. It is always hard to lose a family member.

We had one shooter who had some **trouble with the heat** and had to leave a little early. We always have plenty of water on the range and if you feel a little stressed from the heat we encourage you to go inside, enjoy the air-conditioning, and cool down. Remember in July and August we have a relaxed dress code and encourage everyone to dress cool and comfortable; just remember appropriate footwear and hat. You still are required to shoot appropriate firearms, calibers and shooting styles that may be unique to your chosen category. Make sure you drink plenty of fluids. It is best to start out with a large drink and don't wait until you are thirsty to drink more. Try to stay ahead on your fluid intake.

We had 3 "**Clean match**" shooters: **Dakota Vigilante, Lead Bane and Duelin Doc Raborn** should be congratulated! **Clean Stages:** Sweetwater Sue, Riley Roy, Ozark Outlaw, 5; Strongbox Bill, Mississippi Mac, Missouri Ruffian, Mustang Moore, Mo Brian, Lefty Ed, 4; Wyoming Rattler, Short Tree, Tombstone Shadow, Arkansas Drifter, Missouri Plowboy, 3; T K The Rectifier, Deadeye Dick, Straight Jacket, 2; Badd Dawg Cowboy, Ruff Ridn' Rascal, Campbell Soup Kid, Red River Ralph, 1; Ozark Red changed to "Dale Evans" for the afternoon so she had 1 miss in the am and 4 shotguns not engaged each stage of the pm.

We have a couple of **construction projects** we would like to do but to be honest I can't get very excited about it in this hot weather. We are also looking into trying to get water and electricity to the pavilion if the cost is not prohibitive. Does anyone have access to a backhoe or ditch-witch?

Thanks to Arkansas Drifter, Mustang Moore and Strongbox Bill who helped reset the rifle knockdown targets on stage one. I managed to get back in the woods and get the plate rack out to do some repair work, but decided to move that plate rack a little closer when I took it back. It's only about 20 feet closer but it seems like a lot more. We shot it Saturday and it works much better.

Remember the regular shoots here at Outlaw Camp the second Saturday August 8 and the Fifth Saturday fun shoot the 29th.

Summertime is here-- keep cool and remember to.....

KEEP 'EM POINTED DOWNRANGE!
